FYI. I think I mentioned to you that we met with the Corps shortly before the furlough. The message at the bottom of this chain is Jason Brush's follow up message to Dave Castanon, which summarizes some of the concerns. We are working on a boiled down bullet list, per your recommendation, but I wanted you to have this information in prep for your meeting with Wetlands Division.

As discussed on our phone call today, this was followed by the Corps and Forest sharing the applicant's latest mitigation proposal dated "Sept 2013" between themselves and us having to hear about it from the Forest. -JB
